About Millennium InfoSys

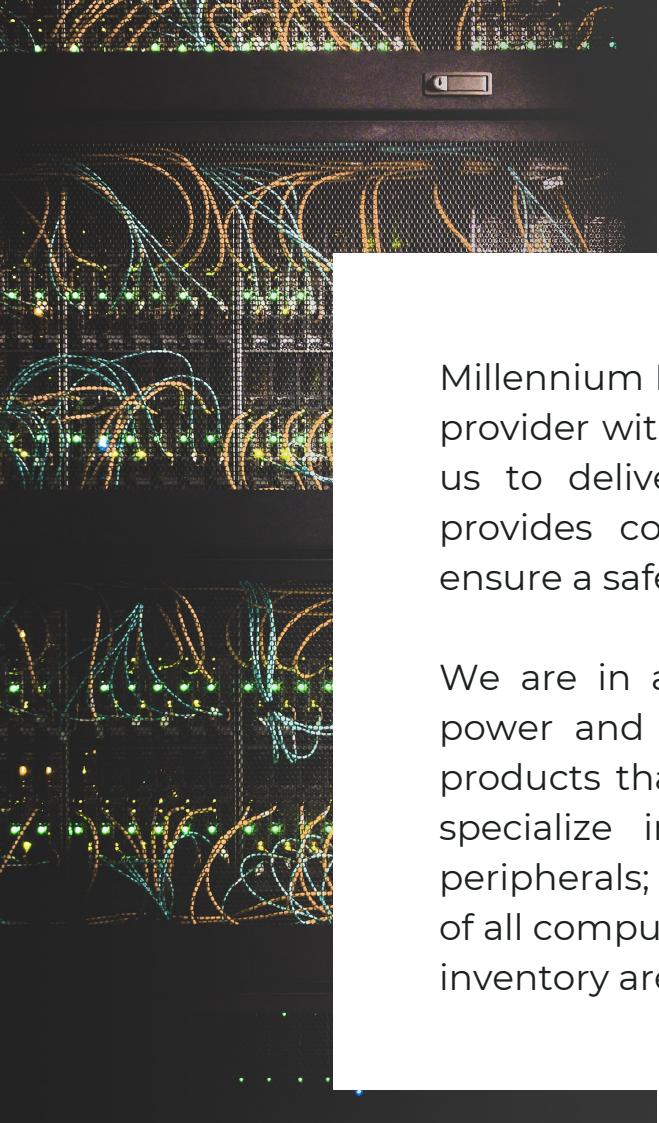

➤ About us

Since 2007, Millennium Infosys Limited located at Kampala, Uganda has been providing IT solutions for business. Hundreds of clients, who range in size from small operations to big size all the way to substantial corporations, rely on Millennium Infosys. They do so because of the considerable experience that is used by us to provide them the product that fits their businesses

➤ Background

Millennium Infosys Limited is a Ugandan based IT company that was founded in the year 2007. Since inception, our company has continually grown and enjoyed much success. We attribute these achievements to our unwavering commitment to providing customers with a diverse selection of computer systems and components at industries competitive prices while maintaining intimate relationships with our customers. Though many transformations have occurred in the technology industry, advance technology has been devoted to keep up with the changing times. One example of this commitment was opening of an exclusive gadget outlet in the famous Acacia Mall, which was created to better service the large demand in retail customer services and computer components. In addition to this opening we were established to distribute our computer system and components as well as manage our repair services

Product Line

Millennium Infosys a leading Information Technology solution provider with hundreds of satisfied and loyal customers trust us to deliver best-in-class technology and services that provides cost savings, improving business practices, and ensure a safe, reliable, and secure IT environment.

We are in a unique position to leverage our large buying power and closer relationships with our suppliers to offer products that many of our competitors cannot. We primarily specialize in offering OEM and WHITELABLE computer peripherals; however, our existing product inventory consists of all computer items. Some of the brands that we carry in our inventory are:

2000 - 2010
